

Call for Art: **Endings & Beginnings**

Every ending creates space for something new.

We invite artists to submit work for Endings & Beginnings a juried exhibition exploring the cycles of change, transformation, loss, renewal, and possibility.

This exhibition considers the moments that define transitions whether personal, cultural, environmental, or spiritual and asks what emerges when one chapter closes and another begins. Artists are encouraged to interpret the theme broadly.

We welcome work that reflects on:

Life transitions and milestones

Grief, healing, and resilience

Identity, growth, and reinvention

The changing seasons and cycles of nature

Memory and letting go

New beginnings, hope, and transformation

Social or cultural change

Environmental renewal or decline

The tension between closure and possibility

All media are welcome, including painting, drawing, photography, printmaking, sculpture, fiber, ceramics, digital art and mixed media.
